

2ND SURFACE WINDOW PERF

2nd Surface Window Perf is produced using a 3-layer printing process. This product is sometimes referred to as one way vision. This means vision is partially blocked from the exterior, but is not affected from the interior.

In most cases, graphics on the inside of windows will meet the requirements of most city ordinances and reduces opportunity for vandalism.

SUGGESTED APPLICATIONS

Retail Outlets	Sporting Events	Conventions	Restaurants
Showrooms	Office Lobbies	Glass Doors	Windows

MATERIALS

» Clear Perforated PSV
