

# FABRIC BANNERS

---

Fabric Banners manufactured through Dye Sublimation are superior to standard vinyl banners. The Dye Sublimation process produces Fabric Banners with richer blacks and a wide range of vibrant colors that really pop off the material.

Fabric Banners can be produced up to 10 ft. wide without a seam. If you need Fabric Banners wider than 10 ft., no problem, we can produce the job in sections and sew them together using a “T-Shirt” seam. This seam is very small and hides well in large Fabric Banners.

## SUGGESTED APPLICATIONS

---

Banners	Stage Curtains	Photography Backdrops	Media Backdrops
Event Backdrops	Trade Shows	Convention Displays	

---

## MATERIALS

» Heavy Knit

## FINISHING OPTIONS

- » Velcro
- » Grommets
