

BACKLIT BLOCKOUT DECALS

DAY

NIGHT

Backlit Blockout Decals are applied to polycarbonate sign faces. We offer a true, day/night, Backlit Blockout Decal using a 4-layer printing process. The blockout portion of the graphic is accomplished by printing a layer of black ink. Our backlit blockout decals are produced so that colors illuminate boldly at night and remain vibrant in daylight.

SUGGESTED APPLICATIONS

Illuminated Sign Cabinet Faces

Illuminated Channel Letters

Illuminated Menu Boards
