

TEXTURED WALL DECALS

Textured Wall Decals are specialized decals consisting of durable, conformable adhesive vinyl with laminate. Textured Wall Decals are designed for medium to heavily textured surfaces.

SUGGESTED APPLICATIONS

Brick Walls

Concrete Block

Stucco

Rough Concrete

Stone

Tile

MATERIALS

» 3M IJ8624

LAMINATE

» 3M 8524 Luster

This PSV requires the use of high heat, 3M's textured surface applicator tools and unique application techniques. On textured surfaces, the film and adhesive must conform to irregular high and low spots, which often includes mortar joints.

This PSV is designed to be effective on many of the most common moderate textures found in public stadiums, arenas and similar environments.
